

INTERNATIONAL TERMS

International orders are done slightly different than US orders. If this is the first time you have ordered, I will need a written or email acceptance of the terms before the order can be processed.

*All international orders are sent via email and are sent as an attached Adobe pdf files.

*All orders must be prepaid by credit card. (US funds.)

*All prices are posted on the website by title.

*Orders are accepted from our online order system or by fax

*All Orders processed thru the online order system are processed and will be sent within 1 business day, and all shipping charges noted on the order confirmation will be removed at time order is processed.

***All sales are final, so please make the selections carefully.**

READING COPIES

Reading copies are sent as onscreen view only and **can not be printed**. If another member of the play selection crew needs to view it, it can be saved to a disk or forwarded.

If you need a print copy royalties will be charged and minimum order must be purchased.

Don't forget to "freeview" scripts from the website, this will allow you to see the first 20% for no charge.

PERFORMANCE COPIES

Once a decision is made we will send a master print copy for you. At the time of the order we will need to know the number of copies you will need and the performance information as well.

You will be responsible to pay for each copy you will need and the royalties attached to that play. If in the future you will need additional copies or additional royalties, simply notify us and pay the appropriate fees.

MUSICALS

At this time we can not offer any musicals for our International customers. The files are simply too large to transmit by email. We apologize if this causes a problem for your organization, we are looking into other possibilities for future orders. If it is possible, we can ship it to a contact in the United States (if one is available to you) for them to forward to you.

CONTACT INFORMATION
